## **DETAILED ACTION**

### ***Oath And Declaration***

The signed Oath and Declaration was received by the examiner and has been entered into the application.

### ***Allowable Subject Matter***

Claims 1-45 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 14, 24, 34, with the allowable feature being at least three articulations circumferentially arranged around the inner mount and the outer mount, wherein each of the at least three articulations has a mechanism which transforms a radial movement into axial movement(claims 1, 14, 24, 34). Therefore claims 1-45 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Conclusion**
